Automate HCM

With Integration Platform as a Service (iPaaS)

Eljun's mission is to radically transform business
using iPaaS technology.

contact@eljunllc.com || www.eljunllc.com

The HR tech environment is **more complex than ever before**

- We're on a mission to
- simplify and streamline
- this environment by
- integrating data and apps,
- **piece by piece.**

Co-founded by a former SpaceX Manager of HR Data and Automation, ELJUN LLC offers unrivaled integration and data modelling services created by pods of business practitioners, solutions architects, and PMP certified project managers.

Starting with a holistic solutions architecture that combines people, process, and data, we implement impactful automation solutions that bolster productivity, reduce cost, and decrease risk.

ROI: Automate Onboarding

\$120k+
labor saved

3k+
hours saved

\$100k+
risk avoided

**Automate On + Offboarding

KEY CAPABILITIES SNAPSHOT

AUTOMATE, STREAMLINE AND SAVE

Integrate Software

Design, build, and manage software to software integrations, connecting apps together, automating workflows, and streamlining processes

Integrate Datastores

Migrate data and implement database designs and connections, enabling data enrichment from sources across the enterprise

Optimize Analytics

Curate data so that it's ready to plug directly into any Business Intelligence tool and embed Machine Learning models directly into workflows

How Does iPaaS Work?

01 STREAM DATA

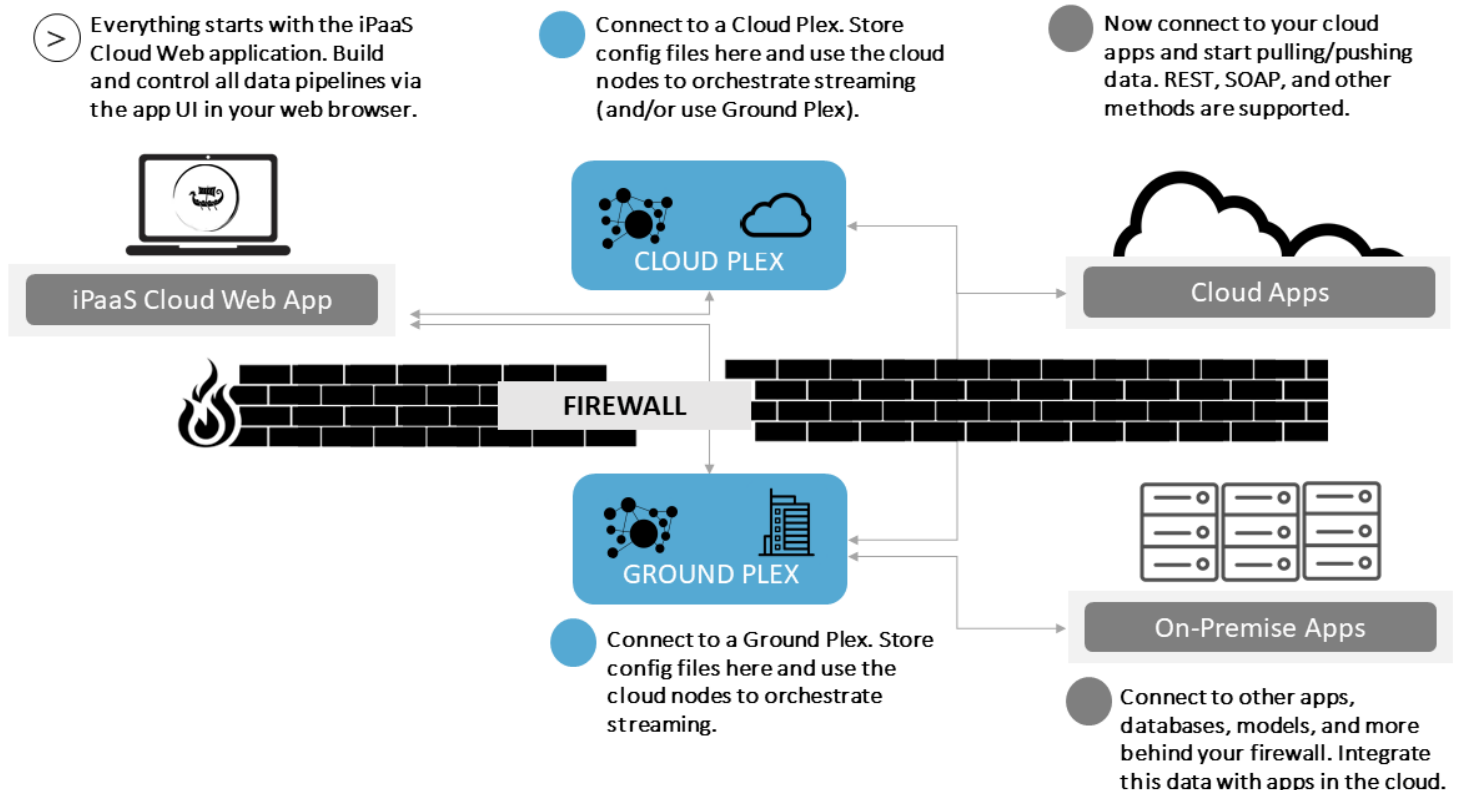

iPaaS uses the same underlying technology you use at home to watch TV and listen to music

02 NO DOWNLOAD REQUIRED

Bolster security by never putting data at rest and boost speed using multi-thread streaming

03 YOU'RE IN BUSINESS

Works with all of your existing tools, so you enter data once and see it cascade to all of your apps

Experience the **best** in the integration and design sector.

Holistic and Cross-Functional Expertise

Our consultants possess deep technical expertise and business acumen, which provides a unique solutions offering that accounts for technical suitability, total ROI, and change management.

Deep Expertise Across Multiple Domains

While all ELJUN LLC consultants have expertise in HCM, we also bring complimentary experiences to every engagement including: financial modelling, payroll, compliance, employee experience, customer survey, sales and marketing, data warehousing, automation, machine learning, data visualization, integration, and enterprise automation.

Agile Implementation

We expertly leverage agile project management methods, and strongly believe in a highly collaborative development processes. Our processes are flexible enough to fit any organization, but are informed by our in-house Project Management Institute (PMI) certified PMO team.

Best Technology on the Market

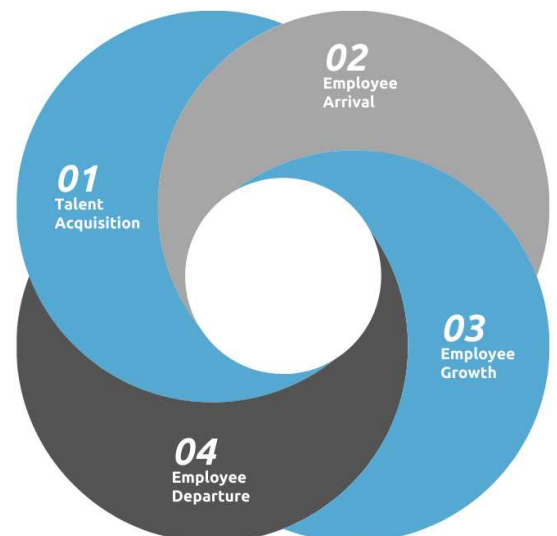

ELJUN LLC provides powerful capabilities by combining our professional services with state of the art iPaaS technology. Cloud-native, multi-tenant, and incredibly secure, iPaaS offers a low-code alternative for software to software, software to database, and embedded ML development.

Speed to Value

Our consultants work extremely efficiently, especially with iPaaS. We typically develop and deliver solutions 5x to 10x faster than market standard for a hard-coded alternative.

**Workday, Salesforce,
ServiceNow, UKG...**
ELJUN integrates it all

ELJUN LLC

ZEAL | STRENGTH | WISDOM

We don't follow best practices, we create best practices

We Have A History of Service

ELJUN LLC is officially recognized by the US Department of Veterans Affairs as a Veteran Owned Small Business (VOSB).

Our founders proudly served in the armed forces and civil service where honor, integrity, and personal courage are expected. We embody these same values today on our new entrepreneurial mission to radically transform the way the world does business.
